

Holiday Shores Snow & Ice Procedures

Snow plowing and ice control begins when there is two inches of snow and more is expected or when ice begins to make the roads hazardous. Ice control material is applied to locations on an “as needed” basis. It takes 4-5 hours to plow the entire community with only two inches of snow. Salt will be used sparingly this year due to increased costs. Please be careful.

DO NOT CALL THE OFFICE TO SEE IF THE SNOW PLOWS ARE OUT OR TO REPORT SNOW. PLEASE BE PATIENT.

Which roads are plowed first?

Heavy traffic hills and main roads are plowed first.

What cautions should I be aware of?

Do not park on the road during the snow removal process. Do not push snow onto the roadway! This creates a very hazardous condition.

What about driveways?

Maintenance personnel are not authorized to plow driveways and plows will not be lifted at the entrance to each individual driveway. Clearance of driveway entrances is the responsibility of the resident. Plows may make several passes in order to widen the roads.

What about mailboxes?

The truck will get as close to the mailboxes as possible. It is the homeowner's responsibility to keep the area in front of the mailbox cleared. Keep mailboxes closed at all times.

What about trashcans on pick up days?

Trashcans and recycle containers must be 4' off the road. The snowplow drivers will not get out to move your containers and will not be responsible for damage.

USE CAUTION!

When maintenance is out on the roads, stay a safe distance behind the trucks. If you cannot see the mirrors on the trucks, they will not be able to see you.

PLEASE BE PATIENT AND COURTEOUS
