Book Your 2020 Event NOW!

Do you have a special occasion coming up soon and need a space? The Clubhouse Ballroom can certainly fit your needs! It is located on the upper floor of the Clubhouse overlooking the main beach and lake. The Ballroom can accommodate 300 people and has a sizeable dance floor. We have a combination of round tables, rectangular tables and chairs that may be used for your event.

Holiday Shores Snow & Ice Procedures

Snow plowing and ice control begins when there is two inches of snow and more is expected or when ice begins to make the roads hazardous. Ice control material is applied to locations on an “as needed” basis. It takes 4-5 hours to plow the entire community with only two inches of snow. Salt will be used sparingly this year due to increased costs. Please be careful.

DO NOT CALL THE OFFICE TO SEE IF THE SNOW PLOWS ARE OUT OR TO REPORT SNOW. PLEASE BE PATIENT.

Which roads are plowed first?

Heavy traffic hills and main roads are plowed first.

HILLS

Gate J – Blvd De Cannes and St. James

Blvd De Cannes and Elm

Gate M – Holiday Point Pkwy and St. James

Intersection at Holiday Point Pkwy and Barbados

Intersection of Catalina and Holiday Point Pkwy

Gate N – Reno Court

Gate O – Carribean

The hill before Carribean and Biscay

The hill on Fountainbleu EAST of Captains

The curve on Fountainbleu just before Gate G

The hill at the interestion of Anchor and Brigantine

The hill on Sextant between Port Lane and Commodore

PRIORITY 1 ROADS

Cedar Lane, Shore Dr, Holiday Dr, Elm, Blvd De Cannes, Newport Bay, Holiday Point Pkwy, Carribean, Biscay, Waikiki, Castle, High Point, Su Twan, Fountainbleu, Treasure, Tamarach, Overlook and Birch.

What cautions should I be aware of?

Do not park on the road during the snow removal process. Do not push snow onto the roadway! This creates a very hazardous condition.

What about driveways?

Maintenance personnel are not authorized to plow driveways and plows will not be lifted at the entrance to each individual driveway.

Clearance of driveway entrances is the responsibility of the resident. Plows may make several passes in order to widen the roads.

What about mailboxes?

The truck will get as close to the mailboxes as possible. It is the homeowner’s responsibility to keep the area in front of the mailbox cleared. Keep mailboxes closed at all times.

What about trashcans on pick up days?

Trashcans and recycle containers must be 4’ off the road. The snowplow drivers will not get out to move your containers and will not be responsible for damage.

USE CAUTION!

When maintenance is out on the roads, stay a safe distance behind the trucks. If you cannot see the mirrors on the trucks, they will not be able to see you.

PLEASE BE PATIENT AND COURTEOUS

Manager's Report *by Rob Clarkson*

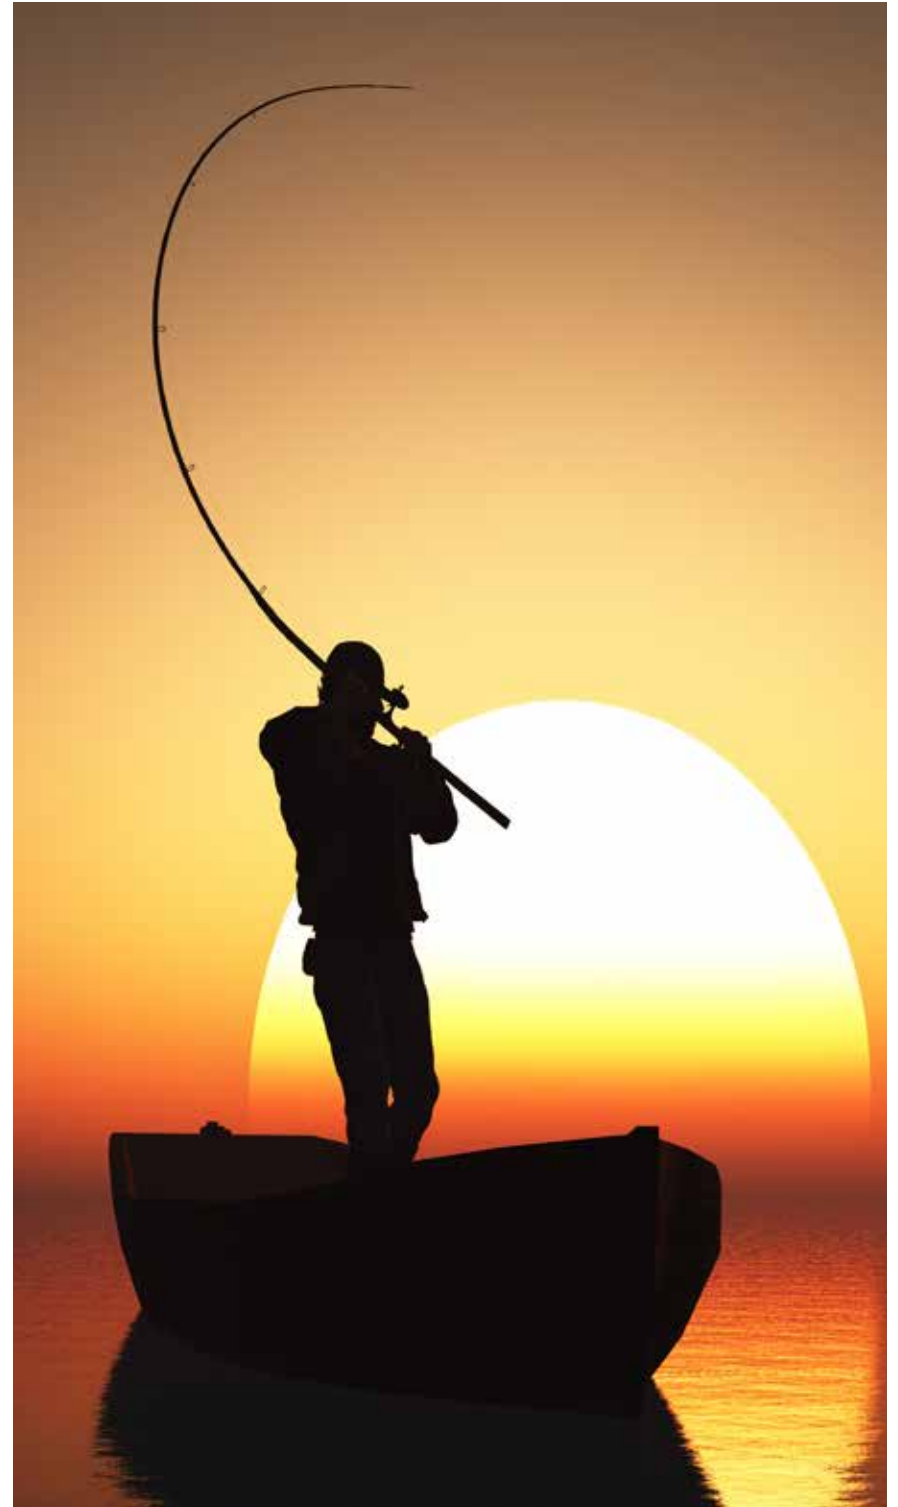

Winter is here, and the Lake has yet to freeze over. When it does, we do not recommend you going out on the ice at any time. If you do use caution and never go alone. For any Ice related emergencies your first reaction should be to dial 911. The Fire Dept. is trained to conduct these types of rescues and this ensures you will not be a second victim. Stay on the phone till help arrives and forward as much information as possible to the emergency dispatcher.

The Boat show season is just about upon us. Check our Rules prior to purchasing your new boat or PWC to ensure it complies and avoid any problems when obtaining your 2020 Boat Stickers. Hulled crafts have a 22' and Pontoons have a 28' maximum length. Check the IDNR or Holiday Shores websites to understand how this measurement is taken. For your reference, in our Boating Rules, a diagram is located on page 4. If you do not have access to the internet come by the office and we will gladly provide you with the most current set of Rules.

Dues and Assessments are due. Members who may have difficulty staying current with this requirement should contact the office and communicate with us any special needs. Failure to do so will leave us no choice, except to proceed with collection efforts which adds costs to all involved. Communication with the Office is a key factor and could save us all added expenses and frustration.

Keep the forecast in mind when parking on the roads. If there is a snow event, the maintenance dept. will be working diligently to clear our roads, and vehicles parked alongside the roads makes their task that much more difficult.

2020 is a draw down year. Plan to repair docks and sea walls. The Lake Committee will be looking at the current conditions of sea walls and docks. You may receive a correspondence if your property is identified as needing to be repaired. Permits may be required so be sure to communicate with the Office prior to any work starting.

REMINDER

2020 Dues & Assessments are due
January 1st.

They can be paid in increments of:

\$236.00 January 1st

\$237.00 March 1st

\$237.00 May 1st

Late charges are assessed on the 10th of each month.

BOAT DECALS

2020 boating decals are yellow. If you can not wait to be the first on the lake with your 2020 boating decal, bring in to the office a copy of your registration and proof of \$300,000 liability insurance as soon as your Dues & Assessments are paid in full. There will be three types of decals, motorized, non-motorized and PWC.

Holiday Shores Garden CLUB NEWS

The facing page to this article highlights the upcoming Annual Plant Sale on Friday, May 1. The work we do here in Holiday Shores would not be possible without the financial support of our community. So please mark your calendars to come out and support us again this year. And since our sale is held at the Firehouse in conjunction with the annual fish fry sponsored by the Volunteer Fire Department, you're supporting their work in our community as well.

The photos on this page feature a few of our members at community service work days in 2019. We continue our efforts in taking care of the entrance gate gardens; the landscaping at the clubhouse, firehouse, corner garden at St. James Drive/Holiday Dam Road; as well as the native plant community garden and other areas. We're proud of the 235 hours of community service we "racked up" in 2019!!!

Garden Club's top "indoor" winter project is to conduct our annual planning meeting for 2020, which was held in late December. Programs for this year include learning more about dragonflies, a Trip to Africa Travelogue (our meetings don't always have to be about flowers!), a Master Gardener presentation, and a repeat of a "Make and Take" project which was a well-received program/activity this past year. And then we always look forward to the Annual Garden Tour, the Annual Pontoon Ride and Lakeside Tour, Annual Flower-of-the-Year Judging, and our year-end Christmas party.

February Garden Tip (from Midwest Living): Take inventory. Look over your garden supplies, such as fertilizers, potting soil, soil amendments and other garden materials. Stockpile now so you'll be ready to go once the spring rush hits.

Firehouse Spring Work Day 2019

Gate A Spring Work Day 2019

Native Plant Garden Spring Work Day 2019

Holiday Shores Garden Club Plant Sale

Friday, May 1, 2020

Our Plant Sale is held in conjunction with the Holiday Shores Fire Department's Annual Fish Fry. Look for member and resident donated perennials; annuals and herbs from Bloomers Landscaping and Botanicals in Grantfork, IL and many raffle prizes!

Forms to pre-order our high-quality geraniums at a discount will be in the March and April Holiday Times.

This is the Garden Club's only fundraiser of the year!

Your continued support enables us to have a budget for projects throughout our community.

Past completed projects include:

- Development of initial concept to create gardens at 15 entrances;
- Major contributor toward purchase of gate signs at all entrances;
- Addition of waterfall garden at Gate A;
- Purchase of fountain at the Clubhouse upper entrance;
- Design and rework corner garden at St. James Drive/Holiday Dam Road;
- Purchase of 50th Anniversary banner and winter seasonal banner at St. James Drive/Holiday Dam Road garden;
- Development of Native Plant Community Garden at north end of the lake and installation of informational kiosk, solar lighting, and stepping stone walkway;
- Design, rework, and addition of solar lighting at island garden on Holiday Point Parkway;
- Renovation of Marquee Sign at corner of St. James Drive/Holiday Dam Road.

Success of these completed projects would not have been possible without your past support!

And, as a “**Thank You**”, we will again have our pre-ordered geraniums for \$4.50 this year!

LOOK FOR THE ORDER FORMS and SAVE THE DATE – MAY 1st for plants and dinner!

Date: December 11, 2019

Attendance

Present: Dave Decker, Monica O'Brien, Tony Harris, Steve Yates, Matt Ressler and Anthony Harrell

Excused Absence: Ali DeVries

Others Present

Rob Clarkson, Rob Frey and Megan Jackson from the Holishor Office

Holishor Members Present: 4

Proceedings

Meeting called to order at 7:30 PM

Pledge of Allegiance recited

Meeting Minutes of November 13, 2019

Steve Yates – Motions to approve the minutes as submitted.

Monica O'Brien – Seconds.

All in Favor.

Motion Carries.

Transfers or Property

There are six transfers of property. There are four houses and two lots with four triggered initiation fees.

Bills & Salaries

Tony Harris – Motions to approve Bills & Salaries as submitted.

Anthony Harrell – Seconds.

All in Favor.

Motion Carries.

Profit & Loss

Tony Harris – We had a Finance Committee meeting this past Monday to review the numbers of where we are at. After the last check signing in December, it looks like we will have a balance of \$312,000 left. The reason we have so much left is because we carried over the ditching that hasn't been finished, that is \$139,000 plus the estimate for us doing the concrete and seeding work that is \$3,000. We also included in the budget this year that is a carry over from last year, \$35,000 for any potentially

Holiday Shores Board of Directors Meeting

needed repairs with getting a restaurateur into the restaurant. Those are some large amounts that haven't been spent. After those, it brings it down to \$135,000. The majority of that, the Finance Committee recommends that we carry it over to the roads and we have a couple wish list items for the maintenance building for around \$8,000 and that brings us down to about \$24,000. That is the status of where we are for spending for the year compared to our budget.

Manager's Report

Public Safety Report

Read by Rob Clarkson

Old Business

Golf Carts/Slow Moving Vehicles

Dave Decker – We had a revision that we discussed at the last meeting and it looks like it was published on the sixth of this month. This rule is following very closely to the rule the state of Illinois has in place. Does anyone have any questions or comments at this point?

Monica O'Brien – Only that we do not have a fines structure to go with it.

Dave Decker – Does anyone have any thoughts on those? Is there a current structure that we would utilize or recommend utilization? **Monica O'Brien** – No. We just need to get together.

Bob Brakhane, 537 – When I read my Holiday Times, I noticed a lot of statements regarding golf carts from Board members and it was astonishing. One had stated that golf carts verses ATVs, that is flat out wrong. A golf cart is a slow-moving vehicle and an ATV is an off-road vehicle that can tear up your property. The vehicles that are tearing up property are ATVs, four wheelers and side-by-sides. There is no way that golf carts and those vehicles need to be considered the same. A golf cart is a slow-moving vehicle because they cannot go fast while those off-road vehicles can. How do you think these farmers get from property to property? They put up an orange slow moving vehicle triangle on the back of their vehicle.

Dave Decker – The discussion that was held was in regard to roads, it has nothing to do with driving the vehicles off of the roads.

Bob Brakhane, 537 – The ATVs should not be on the road at all because it is not a slow-moving vehicle unless it is licensed.

Dave Decker – You discussed the farmers and their vehicles.

Bob Brakhane, 537 – That is a slow-moving vehicle.

Dave Decker – No, most of them are ATVs with a slow-moving vehicle triangle sign on the back of it.

Bob Brakhane, 537 – I've had a couple medical issues and cannot drive just yet, so my golf cart is how I get around out here. When I am on the golf cart and there is a car behind me, I pull over. I just know some of these kids out here are driving them around and destroying property.

Dave Decker – That is why we brought this up to put guidelines in place on what is being done.

Bob Brakhane, 537 – To combine golf carts and all terrain vehicles just does not make any sense.

Anthony Harrell – A lot of the four wheelers are going to not fall under this because you have to have rear view mirrors and things like that, which lot of them don't. A lot of side-by-sides do have all of those things. Hopefully the drivers are obeying the speed limits.

Matt Ressler – I would like to see a fines structure once we get that. I think that will deter a lot of this damage on the north property and on the dam. My recommendation would be to have this fines structure the same as the boating structure we have in place.

Monica O'Brien – You mean by keeping the fraction levels the same?

Matt Ressler – That is correct. Monica O'Brien - It's just a matter of placing the language in the rules. If anyone is willing to be on a committee with me to look at those things, I would be happy too. I don't want to do it by myself.

Anthony Harrell – I will help you with that.

Matt Ressler – Just so everyone knows, and it gets published in the Holiday Times, the \$15 fee for these decals will be put towards our roads. I have been asked several times.

Tony Harris – We should probably incorporate that into the language of this rule for future reference.

Madison County Sheriff Patrols

Matt Ressler – I do not have anything in front of me.

Dave Decker – Do we have anything scheduled for December?

Matt Ressler – They are working on it right now and I am still waiting for an update. The way the public requests are set up right now, they are very busy.

2019 Ditching Project

Dave Decker – I read this write up from you Rob, with the bid from the contractors for roughly \$41,000 to do the driveways and seeding. The line below says our material costs would be \$770 for concrete?

Rob Clarkson – Yes, for seven yards of concrete and three feet wide.

Dave Decker – That is per driveway?

Rob Clarkson – No, that is the total cost. I went out and measured it.

Monica O'Brien – In other words, this is a really high bid.

Rob Clarkson – Yes. There is only one driveway that has a picture frame in it. The rest are basic driveways. I believe they are bidding it this way, so

we do not have to saw cut it or rip the entire apron out.

Monica O'Brien – Did they just not want to do that work?

Steve Yates – I think it would be along the lines of being reliable after a period of time.

Dave Decker – I think we were holding on that decision before doing anything as far when we start doing the work. How is our timeline going to work with their timeline in regard to doing the work, ditching and driveway work?

Rob Clarkson – They will rock the driveway all the way to the top and will remove the rock before they pour the concrete.

Dave Decker – Will they do the cuts on the driveway?

Rob Clarkson – They will do the cuts because they have to remove the pipe and set it to elevation. They will rock it all back in like it is called out in the plan.

Dave Decker – Is there anything holding us from turning this thing loose other than the weather?

Rob Clarkson – The bid was a little higher than what we anticipated. This bid was \$138,000.

Tony Harris – I believe there is \$135,000 left in the budget when we had or Finance Meeting on Monday. Part of the overage we have in the total budget will cover the \$4,000 of the bid difference and the extra \$3,000 for concrete, seed and straw.

Rob Clarkson – We definitely have time to think about this one.

Dave Decker – For the next meeting in January, put together all the costs associated with this, who is going to do what and what we had budgeted for.

By Lot Assessment

Matt Ressler – I have started putting together a committee. So far, I have recruited Kay Slayden and Jane Unsell.

New Business

Ballroom Waiver Request for Midway PTO

Thank you so much for always letting Midway PTO use your ballroom for our fundraiser event. This year, our event will be held on March 27, 2020 and we are having a Rock and Roll Bingo. Our event always brings the school in a lot of money and we were able to purchase a new playground this year with all of our fundraiser money. We will do anything we can to keep the room nice and will pick up all the chairs, tables and vacuum. We of course understand there is a cleaning fee involved. There will be alcohol for sale so please make note of that. If there are any questions, please contact me. Again, we sincerely appreciate you waiving the room fee!

Dave Decker – This is a request for the Association to waive the rental fee for their fundraiser. Historically, because this does benefit the membership, we have approved it. Does anyone have any questions or thoughts?

Monica O'Brien – Are we only waiving their fees once a year?

Dave Decker – Midway PTO I believe only does this once a year.

Anthony Harrell – Do we waive their security fee as well? It mentions

Service will be run as scheduled all week. Please place your cans out by 6 A.M. for pick up.
Happy Independence Day from Republic Services.

Firefighter's Footnote & Medic Minute

Firefighter Footnote – The final count is in, and the Holiday Shores Fire Department ran 217 calls in 2019, breaking down into 26 incident types. Over the past month, we responded to 18 calls of 12 EMS related runs, three unauthorized burnings, two lift assists, and one building fire. Each year the number of runs increases, so we want to make sure we are as prepared as

possible. In January, we held classes on Reports & Documentations, Killer Bleeds, and Tech Awareness which covered specialized rescues. We had live fire training with Edwardsville and will practice our fire-fighting skills when we do a controlled burn on a house sometime before spring. We will also practice our annual Cold Water Rescue training soon. Thank you for helping to support HSFD by making our Chicken & Beer Dance a success – everyone had a great time. Anyone is welcome to join us – no previous experience necessary. If you want to help your community and learn new skills, stop by the station any Monday evening from 7pm-9pm. You can look us up on Facebook or follow us on our website at www.hsfd.org.

Medic Minute - Winter Safety Tips. While we are in the middle of winter, here are some helpful hints to stay prepared and keep safe.

Equip for Emergencies at Home and When Traveling – Be prepared for weather-related emergencies, including power outages: stock water, and stock food that needs no cooking or refrigeration; keep your cell phone fully charged with portable charger and extra batteries; keep fully stocked emergency kit including battery operated devices such as a flashlight, weather radio and lamps along with extra batteries; first aid kit and extra medicine; and baby items. Do the same when you are traveling, and also: be aware of forecasted weather conditions; and inform someone of your proposed route and expected time of arrival. If you become stranded in your car: make your car visible to rescuers – tie a brightly colored cloth to the antenna, raise the hood of the car if it's not snowing, and turn on the inside overhead lights when your engine is running; move anything you need from the trunk into the passenger area and stay with your car unless safety is no more than 100 yards away; keep your body warm by wrapping your entire body including your head, in extra clothing, blankets or newspapers, and huddle with others if you can; stay awake and keep moving – you will be less vulnerable to cold-related

health problems; if you are sitting, keep moving your arms and legs to improve circulation and stay warmer; run the motor (and heater) for about 10 minutes per hour, opening one window slightly to let air in, and make sure that snow is not blocking the exhaust pipe to reduce the risk of carbon monoxide poisoning. Make sure to check on family and friends who are especially at risk from cold weather hazards. If you have pets, bring them inside; if you can't do that then provide adequate warm shelter and unfrozen water to drink.

Winterize Your Car – Test your battery and tire pressure since battery power and tire pressure drops as the temperature goes down; make sure the cooling system is in good working order; place winter tires on your car with a deeper, more flexible tread, if using all-season tires then replace them if the tread is less than 1/16 of an inch (you should not be able to see above the top of Lincoln's head on a penny); check your wiper blades; add wiper fluid rated for -30 degrees Fahrenheit; keep your gas tank at least half full to avoid gas line freeze; and remember to keep your car's emergency preparedness kit fully stocked. Your kit should include: cell phone with portable charger and extra batteries; blankets; food and water; booster cables, flares, tire pump, and a bag of sand or kitty litter for traction; compass and maps; flashlight, battery-powered radio and extra batteries; first aid kit; and toilet paper and plastic bags. Before traveling – clean your car's external camera lenses and mirrors; remove dirt, ice and snow from all sensors to allow assistive-driving features (like automatic braking) to work; warm up your car if possible but never leave a vehicle running in your garage to prevent carbon monoxide poisoning; and always share your travel plans and routes with someone before you leave. To avoid a crash – avoid using cruise control in wintry conditions; steer in the direction of a skid; accelerate and decelerate slowly; increase following distance to 8-10 seconds; and if possible don't stop going uphill.

Sledding Safety – More than 20,000 children younger than 19 are treated for sledding injuries on average each year. Injuries can often occur when the sled hits a stationary object or the child falls off, so you may want to purchase sleds that can be controlled with a steering mechanism and brakes, and insist that they wear a helmet since they could get a head injury (which often includes skull fractures). If you take them to the local hill, make sure you stay with them. Don't sled on or around frozen lakes, streams or ponds as there is a chance the sled could break through the ice.

Medic Minute - Continued

Skiing & Snowboarding – Between 1996 and 2010 there were almost 80,000 snow sports-related head injuries among children and adolescents treated in Emergency Departments, and 77% were TBIs (traumatic brain injuries) – so always wear a helmet. Never snowboard or ski alone, no matter how experienced you are; you should not ski off designated trails, on closed runs or out of boundaries since these areas are not monitored – a rogue skier could even cause an avalanche; take lessons not just to learn how to ski and snowboard, but to learn how to fall and get back up; make sure you know the weather conditions before heading to the slopes; give skiers in front of you the right-of-way; if you have to stop, do so on the side of a run, not in the middle; look in all directions before crossing a trail, merging or starting down a hill; use skis with brakes or a snowboard with a leash to prevent runaway equipment; and make sure your gear fits properly and is functional in outdoor winter weather.

Snow Shoveling – Nationwide, snow shoveling is responsible for thousands of injuries and as many as 100 deaths each year. Sudden exertion, like moving hundreds of pounds of snow after being sedentary for several months, can put a big strain on your heart. Tips for shoveling snow: don't shovel after eating or while smoking; take it slow and stretch out before you begin; shovel only fresh, powdery snow – it's lighter; push the snow rather than lifting it but if you do lift then use a small shovel or only partially fill it; lift with your legs not your back; don't work to the point of exhaustion; if you show signs of a heart attack, stop immediately and call 911. Pushing a heavy

snow blower can also cause injury. Tips for snow blowing: if the blower jams then turn it off; keep your hands away from moving parts; don't run it in an enclosed space due to possible carbon monoxide poisoning; add fuel outdoors before starting and never add any when it is running; and never leave a running snow blower unattended.

Flu Vaccinations – Once again, make sure you get your flu vaccine every winter. Those over age 65 and younger than five are at greater risk for flu-related illness and death. About 5-20% of people in the U.S. get the flu each year, depending on the severity of the outbreak; and flu-related deaths range from about 12,000 to 56,000 per year. The CDC (Center for Disease Control) recommends everyone older than six months get an annual flu vaccine – if you don't like needles you can ask your doctor if a nasal spray is available. The flu spreads through droplets when someone sneezes or coughs on surfaces and then others touch those areas. You are contagious one day before symptoms appear and up to a week after. If possible, avoid going to work or school if you don't feel well, and don't return until your fever is gone for at least 24 hours; avoid being around someone sick; wash your hands frequently or use hand sanitizer; cover your mouth when coughing or sneezing; avoid touching your face; and disinfect surfaces that may be contaminated. Usually Influenza A is the predominant strain, but this year Influenza B is more prevalent. Also, the flu season is hitting earlier and harder than usual this year, so make sure you get your flu vaccine – it's not too late!

PARKING ISSUES

On street parking can create some challenges in our community. It has been brought to the attention of the Association that some of its members have had interruptions in the mail service due to on street parking. Please be courteous when parking along roadways to not block entrances to mailboxes. Our mail boxes line one side of the road allowing ample room on the opposite side of roadway for parking. We are asking for your help to resolve this issue and that you please let anyone visiting your residence know in advance.

Thank you for your cooperation,

OR feel free to bring your pet in with you and we will get your pet registered ASAP!

they will have alcohol served.

Rob Clarkson – No.

Dave Decker – Typically, the only fee we waive is the rental fee. Any of the security and cleaning fees we still require folks to pay.

Rob Clarkson – I believe they held the same event last year and there was a special license that we had to get because it is a form of gambling. They believed their host was the only one who needed it even though he does these everywhere else like he didn't know it. We charged that fee back to them last year and it was all done last minute to where they almost didn't have it. I think they need to be aware of that.

Monica O'Brien – Motions to approve the waiver of the ballroom rental fee.

Matt Ressler – Seconds.

All in Favor.

Motion Carries.

Open Floor

Signage Replacement at Main Gate

Dave Decker – I would like to propose us taking some of the carry over funds and utilizing that to replace our main gate signs. They have deteriorated significantly, and we need to do something about it. There is an individual that is a member who has a sign business, they make powder coated steel signs. The proposal at this point would be to make the same pattern and color that is currently there but make it out of steel that is powder coated rather than vinyl. The proposed estimate to do this is roughly \$1,300 per sign. What is the Board's thoughts?

Monica O'Brien – We definitely need new signs and I personally like giving a member of ours the business.

Anthony Harrell – I like the sample they gave us, it looks good.

Tony Harris – Is this just for the main gate?

Dave Decker – Yes, just the main gate which are only two signs. There is one on each side of the brick structure.

Tony Harris – I think the proposal looks great.

Monica O'Brien – I like that these proposed signs are made of steel so they would last a lot longer than what we currently have.

Dave Decker – With the powder coating, they should hold up a lot better. The proposed signs are the same size of what we currently have. I think these would definitely make an improvement.

Monica O'Brien – I agree.

Dave Decker – Just to reiterate, they will be the exact same design of what we have.

Monica O'Brien – Motions to replace the two signs at the main gate up to \$2,600.

Anthony Harrell – Seconds.

All in Favor.

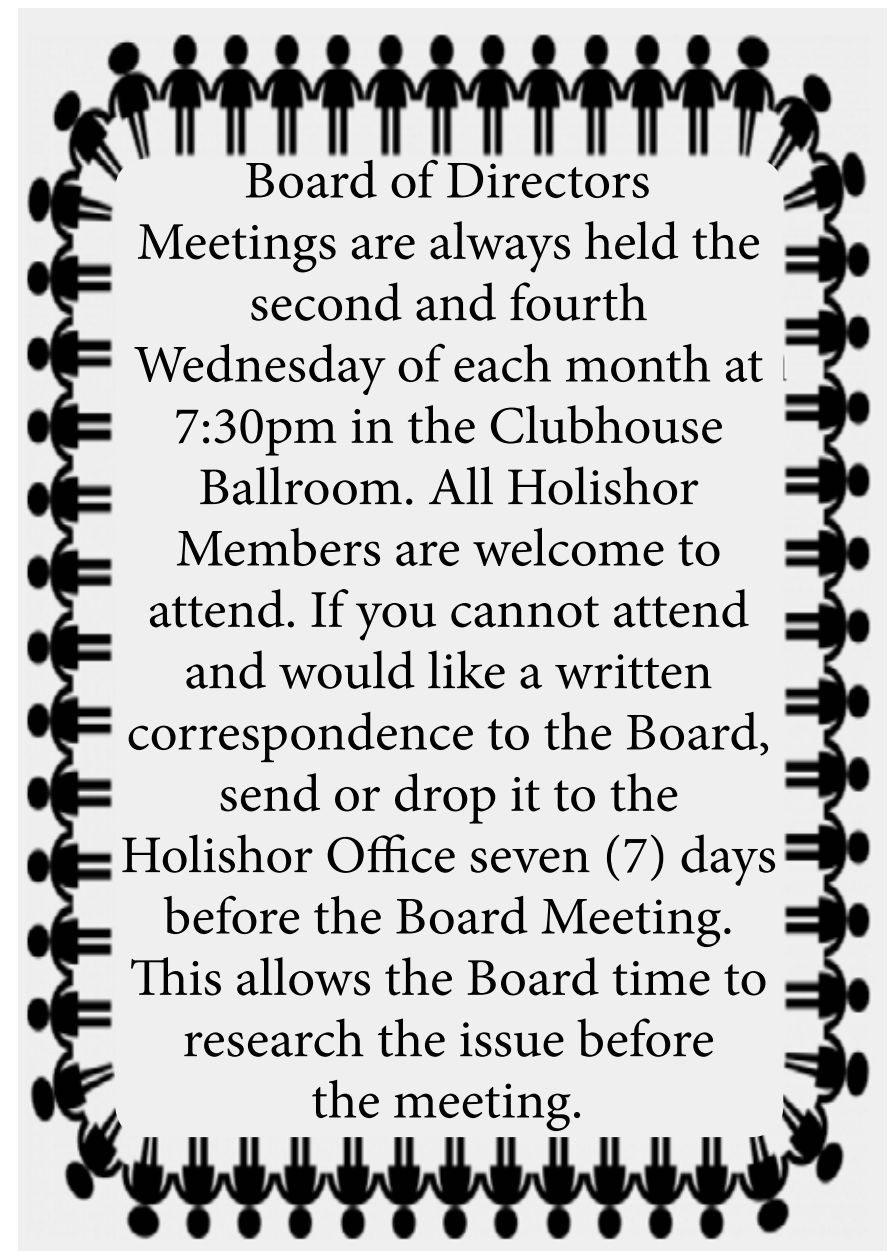

Motion Carries.

Steve Yates – Motions to adjourn to Executive Session.

Tony Harris – Seconds.

Meeting Adjourned at 8:10 PM

Meeting Minutes submitted by Megan Jackson.

Love versus Like

When I was in high school, there was a kid named Richard who took a real liking to me. I, a senior. He, a sophomore. He was a disheveled, unruly and bad mannered kid that drove me crazy. And he hung around me. O joy! Now God had really been working in my heart and I knew I had to love him, because God's Word teaches us to 'love one another.' I knew I had to be nice and civil with him. But I didn't like Richard.

And that is the way we live our lives with some people in our daily world. We smile through gritted teeth. We 'love' them but we don't 'like' them.

That's where we get in trouble with our thinking about God and how he relates to me. I know that there are parts of me that are not very nice...sins, failure, willful stubbornness; we can build a long list. So it begins to nag at us.

Does God like me or does he just love me? Does he just 'put up' with me?

1 John 4:8 says, "God is Love." As I study the Scriptures I think God would define his love for us, his kids, in this way. 'I have made the decision to love you. I forgive the nasty, devious and sickening parts of your life and being and will work with you to clean and change the crud of your life

into something amazingly better. I commit myself to conduct all my actions toward you so that they will be best for you at all times. I don't care what this will cost me. I will value you, sacrifice myself for you, stand with you, defend you, counsel you. I take you for better, for worse, for richer, for poorer, in sickness and in health for all eternity, if you will have me. I will be fair with you. I am for you. I forgive you and I embrace you. I want to be with you forever and that's why I forgave you and that's why I invited you to live in my house forever. I enjoy your company. I delight in our conversations together. I have nothing against you. Nothing. Nada. You are precious and special to me!' It's great being loved like that.

For further conversation about the Bible or spiritual matters, please contact Pastor Rob Lemon at Holiday Shores Baptist Church at 618.377.7729 or pastorrob@holidayshoresbaptist.org.

December 27, 2019

Holishor Association, Inc.
President Dave Decker and Board
One Holiday Point Parkway
Edwardsville, IL 62025

Dear President Decker and Board:

As year-end approaches quickly, I want to take this opportunity to update you on Madison Communications' successful 2019 accomplishments as well as provide you notice of rate changes. We will submit payment of franchise fees pursuant to the Franchise Agreement in separate correspondence in mid January. As Madison continues to enhance our HDTV services and broadband internet platform, we continue to invest in the long term commitment we have to the communities and region we serve.

Throughout 2019, we completed upgrades to Madison services and expanded our state-of-the-art Fiber Optic Network. We also take our community commitments seriously as we strive to enhance Madison products. Our efforts are to create a mutually beneficial opportunity to increase our consumer and commercial subscriber count. **Specifically, Madison accomplished the following in 2019:**

- **Built out over 60 miles of new fiber network with additional fiber expansions currently being engineered and planned for the upcoming year**
- **Engineered new technology for broadband deployments providing speeds up to 1 Gbps in order to meet consumer demand**
- **Decreased rates and increased speeds on certain selected broadband internet products**
- **Added multiple new channels to the CATV line-up and in High-Definition (HD) and continued to expand our TV Everywhere over-the-top video product**

Madison has remained diligent in the pursuing and monitoring of the state and federal regulatory environment to assure that our services remain competitive and provide a premium value to our communities and customers. Local programmers and

popular content providers have continued to impose unsubstantiated increases to deliver their programming. National organizations, including the National Cable Television Association (NCTA) and the American Cable Association (ACA) are diligently addressing these issues with Congress and the Federal Communications Commission (FCC). We join those efforts to maintain the viability of small, rural CATV systems that provide services equivalent to nationwide CATV companies and satellite providers.

I am confident you are aware that the cost of operating our local CATV business continues to escalate. Madison continues to experience dramatic increases in the programming fees we must incur for the right to offer new and existing channels. Madison attempts to absorb as much of these costs as possible to remain competitive and provide value to our customers. In addition, operating costs such as electricity, insurance, and transportation continue to rise.

Effective February 1, 2020, the monthly regional sports network fee will increase by \$1.03 to cover a portion of the substantial rising costs of contractual obligations to transmit certain regional sports networks. In addition, the monthly HDTV-Expanded Advantage HD tier rate will increase by \$5.00 to cover the out of control costs of the conglomerate programming networks (such as Disney/ESPN, AMC, Viacom and Discovery, to name a few), who dictate rates and what channels will be available in the Expanded tier. With substantial programming increases.

Throughout 2020 we will continue to upgrade equipment and outside plant networks to deliver the highest quality and most reliable service that our customers have come to expect from us. We will take each opportunity to deliver the latest service offerings through local investments in technologies that address the converging voice, video and data demands of our communities.

Unlike many national service providers, we take pride in continuing our local investments by delivering the highest quality standards through a dedicated, local employee workforce. We remain focused on growing local employment opportunities and by service offerings that allow many of our successes to be delivered back to the community where it matters the most, back to our friends, neighbors and family.

We look forward to continuing to sponsor our communities and local activities. Through our employees, we work proudly with our local municipalities and customers to provide unparalleled, affordable access to quality HDTV, Internet and Local Telephone services. Please do not hesitate to contact me directly with any questions!

Sincerely,

Mary Schwartz Westerhold
VP/CFO
